## **ANNEXURE – I**

### **STATEMENT OF ARTICLES OF CHARGES FRAMED AGAINST SRI G.SRINIVASULU, FORMER DEPUTY EXECUTIVE ENGINEER, RWS, PUTTUR AND PRESENTLY WORKING AS DEPUTY EXECUTIVE ENGINEER, PANCHAYAT RAJ.**

#### **CHARGE I:**

That Sri G.Srinivasulu, Deputy Executive Engineer, Panchayat Raj, while working at RWS Puttur of Chottoor District of Zone-IV has derelicted his official duties by allowing lesser strength steel in reinforcement and also by check measuring the erroneous trench width & insufficient sand bed thickness resulting in possible excess payment of Rs.48,753/- to contractor.

#### **BASIS:**

The work of CPWS Scheme to Puttur and 6 other habitations has been inspected by the V&E Department and found that the width of trench for laying of HDPE pipe was not as per specification is substantiated as in some stretches the observed width of trench is found to be less, and though payment was not released recording & check measuring the excess width is not correct and the thickness of sand bed is falling short of recorded measurements.

Sand, Bricks used etc., the stress in steel reinforcement is less that specified as Moolakona site. As against required yield stress of 415N/mm<sup>2</sup> the test results indicated value of only 315N/mm<sup>2</sup> to 385N/mm<sup>2</sup> for some bars. The weight of reinforcement is less that the one specified for each dia of bar more particularly in case of 12 mm bar. Hence the structures which are completed using the steel shall be load tested for their carrying capacity. (infiltration wells, OHSR, Watchman Quarters. Due to above reasons, the recovery towards usage of less thickness of sand for sand bed and excavation of less width of trench works out to Rs.48,753/-. Thus financial loss causing to the Government.

Hence the charge.
